Rose Nursery

Twenty-four Years of Knowing

and Growing Beautiful Roses

A. F. Watkins

A Block of Our Budded Roses in One of Our Six Rose Nurseries. All Our Roses Are Field-grown and Field-budded on Multiflora Japonica

A. F. WATKINS, Manager of Rose Production, Has Devoted 24 Years of His Life to the Study and Culture of Beautiful Roses. This is Your Assurance of Acclimated, Quality Rose Bushes.

Why It Will Pay You to Plant Roses Grown by Experienced Rose Specialists

This nursery specializes on Roses only—especially southern varieties. We are also prepared for northern requirements, as we grow hundreds of thousands of Roses annually for some of the largest national Rose firms of the North and East—nurserymen who are exacting in their requirements. We have a thoroughly experienced organization, amply financed. Two members of the organization have been Rose specialists for 24 years. All the 10 key men are also experienced Rose-growers. Dixie Rose Nursery is used as a testing nursery for the best methods of southern Rose-culture.

We Grow Principally Hybrid Teas or Everblooming Roses

Hybrid Tea Roses, indicated by HT, do not bloom all the time, but if kept healthy and growing, they bloom successively at intervals throughout most of the year in the South. Ours are adapted to the South and Southwest.

Special or Newer Everblooming Roses. HT.

Betty Uprichard. HT. (A. Dickson & Sons, 1922.) Copper-red buds opening to semi-double, large flowers of brilliant orange-carmine on outside of petals, showing light salmon reflexes; spicy fragrance. Strong grower; persistent bloomer; healthy. 50 cts. each, \$5.00 per doz.

Cuba. HT. (Pernet-Ducher, 1926.) Vivid orange-scarlet buds, opening to immense, cup-like flowers of iridescent copper-red and brilliant orange-vermilion. Very free-flowering; vigorous, erect. 50 cts. each, \$5.00 per doz.

Dame Edith Helen. HT. (A. Dickson & Sons, 1926.) Shapely buds and large, high-centered blooms of clear pink, freely produced on long stems; sweetly scented. Vigorous. Showiest fall pink Rose for exhibitions. 60 petals. Illustrated on back cover. 50 cts. each, \$5.00 per doz.

Edel. HT. (S. McGredy & Son, 1919.) Very large, well-built, stately blooms of pure ivory-white and lovely globular form. Vigorous; erect stems. Good healthy foliage. One of the best bloomers. 88 petals. 50 cts. each, \$5.00 per doz.

Edith Nellie Perkins. HT. (A. Dickson & Sons, 1928.) Double, medium-sized bloom with pointed center; outer petals cream and blush-pink, salmon and apricot in center. Grows well. Splendid foliage. 50 cts. each, \$5.00 per doz.

Etoile de Hollande. HT. (H. A. Verschuren & Sons, 1919.) Brilliant red blooms of magnificent size, perfect in half-open state; attractive centers when full blown; enormous petals; fragrant. Healthy; free-flowering. One of the best new garden Roses. Illustrated on back cover. 50 cts. each, \$5.00 per doz.

Felicity. HT. (Clarke Bros., 1919.) A beautiful shade of mallow-pink, tinted with cerise and cream; sweet-scented. Vigorous; free-flowering. 50 petals. 50 cts. each, \$5.00 per doz.

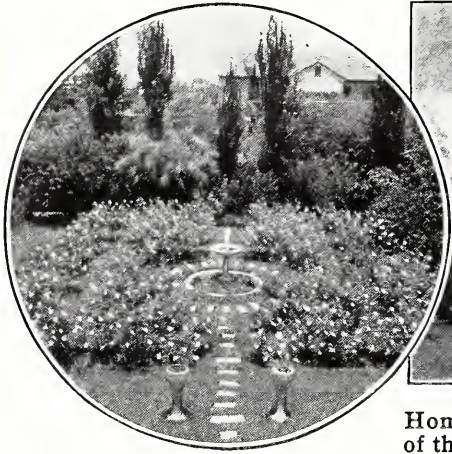

Hollywood. HT. (Peter Scittine, 1930.) Dark rose-red flowers resembling in form the famous Premier Rose of the flower-shops. The bud is firm, pointed, and opens to an exquisitely shaped, high-centered, fragrant flower of appealing charm. Strong stems for cutting. 50 cts. each, \$5.00 per doz.

These Roses are illustrated in this Catalog. They were selected for their beauty, variety of color and shape, and because they all bloom abundantly over the South. An ideal selection. **Mail your order today!**

Home of Mr. and Mrs. J. W. Fincher, Houston, Texas, and a corner of their Rose-garden. Mrs. Fincher has bought all her Rose bushes from Dixie Rose Nursery for the past seven years—hundreds of plants.

Why Every Home Should Have a Rose-Garden

The beauty of a real Rose-garden cannot be surpassed—nothing can take its place. No home is complete without a Rose-garden, especially if you have space for at least 100 plants. In such a garden you may have blooming Roses in reasonable abundance most of the year.

Nothing gives to the home the same atmosphere of distinction as a Rose-garden. Whether the house be fine or modest, a few dollars invested today will give every home more than wealth—the satisfaction of possessing a bit of Nature's most exquisite beauty.

Instructions for Planting and Growing Roses

Illustrated instructions mailed with every order, with drawings showing how to plant, prune, and care for Roses. This information was compiled by A. F. Watkins, one of the South's leading Rose specialists.

Finest Southern Roses at Lowest Prices in 24 Years

The prices in this Catalog demonstrate that you can now have a beautiful Rose-garden at low cost. You can buy cheaper Roses, but Dixie Quality Roses cannot be produced and prepaid to you at lower prices than we quote here. All our Roses are field-grown, field-budded, on Multiflora Japonica stock. They are proven, hardy, free-blooming Roses. Now we are budding more than 1,000,000 Rose plants, and our prices are the lowest for which our large and experienced organization can produce Fine Quality Roses.

A Rose-Garden Completes the Ideal Home

Every home should have a Rose-garden of 50 to 100 plants. The Rose-garden movement is one of the fastest-growing movements in America today. If you have no Garden Club or Rose Society in your community, organize one.

65 members of the Dallas Garden Club (one of several Dallas Garden Clubs), visiting Dixie Rose Nursery, November, 1930. Members of this Club have since bought over 1,000 Dixie Rose bushes

SPECIAL GROUP PRICES TO GARDEN CLUBS

By ordering 100 or more Roses in one order—in multiples of 10 (not less than 10 of any one variety)—we quote special prices. If you wish to organize a local Rose Society, write American Rose Society, West Grove, Pa. Dixie Rose Nursery will give one annual membership in the American Rose Society worth \$3.50, which includes their annual book on Rose-culture, to every Rose club ordering 100 or more Dixie Rose bushes this season.

Fall and Early Winter Planting Are Best in the South

Late fall is the best planting-time in the South, where growth ceases only a few weeks in midwinter. Bushes planted before winter settle down to make root-growth and are ready to begin growing vigorously when spring opens. In the South, Roses may be planted any time in winter when ground is not frozen. Every day that Rose-planting is delayed after the proper time (November 15 to February 15) means fewer flowers and less vigorous bushes the succeeding summer. When convenient, prepare ground several weeks before planting.

Orders for 12 or more Roses will be shipped at the dozen rate, regardless of the number of varieties

This Catalog Describes the Most Beautiful Roses for the South and Southwest

Many of these Roses will also thrive in most parts of the North, with occasional winter shelter. We grow small quantities of many Roses not listed here. If interested in Roses not mentioned in this Catalog, write us.
